ATTACHMENT SETS

Quiet Attachment Kits

For homes or offices with extensive areas of wall-to-wall carpeting, the Air King Quiet Zone® Electric Tool Kit provides the tools for fast and effective cleaning results. The Quiet Zone® Electric Tool Kit includes a Quiet Drive Electric Brush with V-Belt technology that features a headlight for vacuuming under furniture, height adjustments to match the brush to the floor surface for more effective cleaning, a reset button to prevent motor burnout in case an object has stopped the brush roll, and a step-on wand release system.

Model CVEK3000 - Cord Connected

Model CVEK3500 - Direct Connect

BEST

Electric Attachment Kits

For homes with wall-to-wall carpet or carpets laid directly on hard surfaces the Air King Electric Tool Kit provides the tools for fast and effective cleaning results. The Electric Tool Kit includes a powerful Electric Brush that features a headlight for vacuuming under furniture, height adjustments to match the brush to the floor surface for more effective cleaning and a step-on wand release system.

UPGRADE

Electric Attachment Kits

For homes with large areas of carpets the Air King Electric Tool Kit provides the tools for fast and effective cleaning results. The Electric Tool Kit includes a powerful Electric Brush that features a headlight for vacuuming under furniture, height adjustments to match the brush to the floor surface for more effective cleaning and a step-on wand release system.

Model CVEK500 - Cord Connected

BETTER

Air Powered Turbine Attachment Kit

For homes that feature hardwood floors with area rugs, the Air King Turbine Tool Kit provides the tools for fast and effective cleaning results. The Turbine Tool Kit includes a turbine brush that features a unique design to maximize power from the available air stream, a built-in air relief valve that allows the head to be adjusted to better match the vacuum and the floor conditions, and a brush pattern that improves cleaning ability by drawing the dirt to the center of the brush where it is drawn away. The crush proof hose included in the Turbine Tool Kit features an ergonomically designed handle, 360° swivel to eliminate kinks in the hose and to reduce effort when cleaning, and a below-the-surface slide switch along with dual contact points on the contact ring provide a high level of reliability.

Model CVK300 - Turbine

Air Powered Attachment Kit

For homes that feature mostly hard floors, the Air King Standard Tool Kit provides the tools for effective cleaning results. The Standard Tool Kit includes a multipurpose brush that effectively cleans hard flooring. The Standard Tool Kit also makes an excellent kit for use in garages to clean out car interiors.
